

SAP Defender powered by Protect4S is an SAP vulnerability scanning service. SAP Defender scans for potential weaknesses in your SAP systems.

We can also offer remediation services so you can be confident your SAP systems are secure.

### **Prevention is Better than Cure. Invest in**

- ▶ SAP Vulnerability Scanning
- ▶ Automated SAP Note Implementation
- ▶ Full visibility of potential vulnerabilities

### **Get in control with a continuous process that**

- ▶ Automates and simplifies manual activities
- ▶ Makes audits easier with better compliance

### **About Aliter Consulting**

Aliter Consulting is a SAP® PartnerEdge® member, providing SAP technology and security related services.

As a Microsoft Gold Partner, our clients trust us to help them migrate, secure, host and run their Enterprise SAP solutions on the Azure public cloud.

### **8 reasons to choose SAP Defender powered by Protect4S**

- ▶ Scan your entire SAP platform
- ▶ Monthly insights into your SAP vulnerabilities
- ▶ Simple subscription model
- ▶ Powerful scanning and automation capabilities
- ▶ Easy SAP add-on installation
- ▶ Free trial period (can be uninstalled afterwards)
- ▶ Regular updates to cater for latest SAP exploits
- ▶ Remediation bolt-on services available

## Features

The scans use more than 1900 checks and that number is constantly growing. SAP Defender powered by Protect4S, hardens your SAP systems continuously on all relevant layers of Operating System, Database and Application.

SAP itself and other providers offer SAP Security solutions that are often very complex and not user-friendly. By choosing our SAP Defender service, you'll get a solution that largely automates and simplifies the complicated SAP Security processes.

## Protect4S Continuous Improvement Series

### Scan

- ▶ Automated periodic scanning (any desired frequency)
- ▶ Automated alerts when scans are finished

### Analyse

- ▶ Automated generation of heatmaps and reports
- ▶ Automated generation of landscape overview
- ▶ Automated integration with any SIEM solution
- ▶ Automated creation of System Connection Map

### Mitigate

- ▶ Automated generation of mitigation plan
- ▶ Automated generation of task allocation
- ▶ Automated implementation of SAP Security notes
- ▶ Automated Patch Management

## What customers say about Aliter Consulting and Protect4S

*“Aliter Consulting’s commitment, integrity and work ethos are second to none. They are personable and deeply knowledgeable in their chosen field. I would have no hesitation in using them again and would suggest anyone considering their services need look no further.”*

*“Protect4S not only helps us to scan our SAP systems more frequently but provides us with insight into the risks involved. This importantly allows us to switch the SAP security process from reactive to preventive.”*
